

PRESS RELEASE

Delivering creative sustainability

A new year, renewed energies and a new edition of Lineapelle is a good way to start the season. The must-attend international show 'par excellence' will for second consecutive year home some of Spain's most internationally recognized brands.

The spring-summer season brings different shades and palettes, empathic with our feelings and the ever-changing environment. Passion for art, design and cultural diversity will be very much apparent in the collections that the Spanish companies will be showcasing in Milan.

Merging the values of tradition with 21st technology has resulted in extremely attractive collections where the 18 Spanish brands deliver new and exciting promises to the world of fashion where seasons are slowly merging together, allowing breath-taking creativity with finishes and colour palettes. From many nuances, shades and tones of yellow, to deep rich brilliant reds, turquoise green blues to vibrant pristine whites and powdery natural colours, the customer has a difficult choice to make.

Embossed, full-grained, waxed, glazed, waxed, etchings, gloss ... finishes that will take us on a journey that begins in past with the subtle elegance of classics, stopping at different stages to remind us that leather never goes out of date, to finish at a gateway that gives us a glimpse of the tech-future to come.

International recognition achieved through years of commitment, high standards, perseverance and applying technological knowhow makes the Spanish Tanners one of the preferred partners of the international fashion industry. The Spanish Tanners collections are been showcased in 4 of Fiera Milano's numerous pavilions (9, 11, 13 & 15) and the visitors will be able to see, touch and breath the art of Knowhow on leather.

Participating companies:

Combalia, Curtidos Aqualata, Curtidos Badia, Curtidos Bassols, Curtidos Lajara, Curtidos Martinez Leal, Curtidos Castañer, Dercosa, Despell, Incusa, Inpelsa, Miguel Farrés Rojas, Miret y Cia, Morera Pell, Riba Guixa, Tenerías Omega, Verdeveleno and Quimser.
