SPANISH PRESENCE AT ACLE 2017

ACEXPIEL, THE SPANISH TANNERS ASSOCIATION WILL BE PRESENT AT THE 2017 EDITION OF ALL CHINA LEATHER EXHIBITION, THE MOST IMPORTANT LEATHER SHOW FOR THE CHINESE DOMESTIC MARKET.

The event, held at the new exhibition centre on the outskirts of Shanghai, with over 1000 international and domestic exhibitors, also contains just under 200 sqm of “made and designed in Spain” leathers and furs as well as chemicals and machinery for the leather and fur industry.

Three tanneries and one raw hide supplier will be present at the tanning hall. Inpelsa, La Doma and Riba Guixà will be leading the small leathers section with bespoke collections of creativity and inspiration for the footwear and garment manufacturing industry.

All the Spanish companies, including the chemical and machinery enterprises, enjoy common denominators, such as quality, investment in innovation, research, development and effective partnerships.

The tanneries are located in Hall 1, whilst the chemical companies are located in Hall 3. This edition also sees the new incorporation of Quimser, whom has been present at APLF for a number of years but wishes to explore opportunities in the Chinese domestic market.

Tanneries: La Doma, Inpelsa, Curtidos Riba Guixà

Raw and semi-elaborated: Casas i Fills

Chemicals & Machinery: Laboratorios Miret, Leather Quimica, Quimser, Olcina, Texapel, Leather Quimica, Quimipiel & Marlet Quimica
